The Koranskys stood the noisy gatherings as long as they could, and then decided to put an end to them. To do this hey kept a constant stream of water rom a hose playing on the steps during the entire evening. This kept the stoop lear, but made he neighbors angry. They stood about in little groups and sid hard things about the Koranskys. I didn't need much to have them break no open revoit.

That little came one day when some of he running water was sprinkled on Mrs. for a Goldberg, who lives next door at 75. From that time on the Koranskys and a hard time getting into their house, they were met and threatened with assault. The space before their house was rowded so that they could not go in or out, their windows were broken and helr front door was nailed up.

Exactly how last night's serious trousle commenced the police would like to mow, but it is not difficult to guess. The struggling, fighting gathering seemed to come together by magic.

STARTED ANOTHER FIGHT.

McCue-Dabney Mill Broke Up in Row After Three Rounds. About fifty New York sporting men

About fifty New York sporting men travelled over to Long Island City early this morning to witness a prize fight which was pulled off in a stable on one of the main thoroughfares of that place between Martin McCue and Martin Dabney, two 110-pound lads, of this city. The fight was for \$100 a side and was to have been to a finish.

After three rounds of hard fighting, with McCue having slightly the better of it, the seconds of both men started to fight on their own account. While Referee Billy Lamb was trying to separate the seconds some one in the crowd yelled "Police," and all hands made a rush for the door.

In the confusion that followed, one man had his leg broken and another his eye blackened.

The fight has been postponed indefinitely.

WASHINGTON, Aug. 1.—The immunity from cranks which the White House officials have enjoyed for a few weeks was broken to-day by the appearance at the main doorway of an undersized man dressed in working clothes and carrying a bag of stonemason's tools over his shoulder. He was Thomas Cadogan, and gave his address as the Lynn House, on Pennsylvania avenue. In an excited manner he said to the watchmen, "I want to see the President."

"What for?" queried the policeman, quietly.

"They want to put me under ground, see? And I want to tell the President about it, and you must not stop me, repled Cadogan, nervously. A telephone call brought a patrol wagon and the inan was carried to the Third Precinct Station. Some papers were found in his pockets, making it appear that Cadogan wanted to secure the Presedent's permission to "line" the Capitol building.

Cadokun has called before at the White House, but was tractable and persuaded to go away. In a note he companding that the watchmen kept importance with Mr. Cleveland.
